

Message from Executive Director on New Year

My Dear Colleagues,

I wish you and your family a Very Happy & Prosperous New Year 2022. On the occasion of 'BHEL Day', lets rejoice and celebrate our industrious and progressive journey of engineering excellence. I take this opportunity to express my sincere thanks to all of you for achieving a distinct progress during 2021, even in the face of significant challenges.

This is the time to look ahead in New Year 2022, with optimism, zeal and hope that the economy will improve further, enabling BHEL to leap forward. We need to reinforce our resolve to be better at whatever we do, continuously develop, learn, enhance our skills, and strive to build PEM as a benchmark engineering division of global repute.

BHEL had declared year 2021 as a year of Decisive Action. PEM has also taken many initiatives in the area of FGD cost optimization, economic buying, project execution & Nuclear Power Plant engineering. It is a matter of pride that eight of our employees have received BHEL Excel award in different categories.

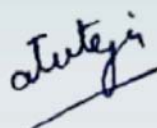

Friends, rapidly changing world is throwing up new challenges and new business opportunities. I am confident that all of us in PEM will seize these opportunities and scale new goals in coming years.

Last year we have witnessed unprecedented times during 2nd wave of Covid and many of us suffered and have lost some of our friends/colleagues also. As the new Covid variants are emerging, we may encounter challenging situations again. So let's follow Covid appropriate behaviour and guidelines.

Once again, wishing you and your family a Very Happy New Year 2022!

With warm personal regards,

January 1, 2022

Alka Tuteja
